PLACE HOLDER DOCUMENT

FOIA Case Number: EPA-R10-2022-006722

Description: Communications re Proposed Plan for Harbor Island East Waterway Cleanup

1. All internal (EPA) communications from 1/1/2018 to the present regarding the use of ""anthropogenic" and/or Washington State "regional" background concentrations in the Proposed Plan for the East Waterway cleanup.
2. All external communications with other agencies, Tribes, community organizations/members, responsible parties and their representatives (including consultants) from 1/1/2018 to the present regarding the use of "natural" and/or "anthropogenic" and/or Washington State "regional" background concentrations in the Proposed Plan for the East Waterway cleanup.
3. All Draft Final or Final documents supporting the pending Proposed Plan for the East Waterway Operable Unit of the Harbor Island Superfund Site, including any remedial investigation assessment, feasibility Studies, and anthropogenic background analysis, or any other supporting analysis. Please also produce any modeling documents, or work papers used to develop these documents.
4. All comments received by external parties on any draft or final documents related to the East Waterway referenced in (3) above and EPA's responses to those comments.

Records responsive to this request are publicly available online at:
